

Universal Payment Stand /PS-1010

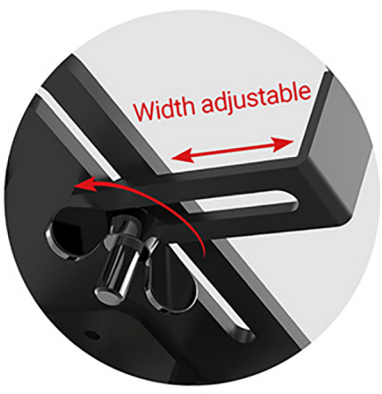

- All Steel
- Adjustable Structure
- Flexible Movement

FEATURES

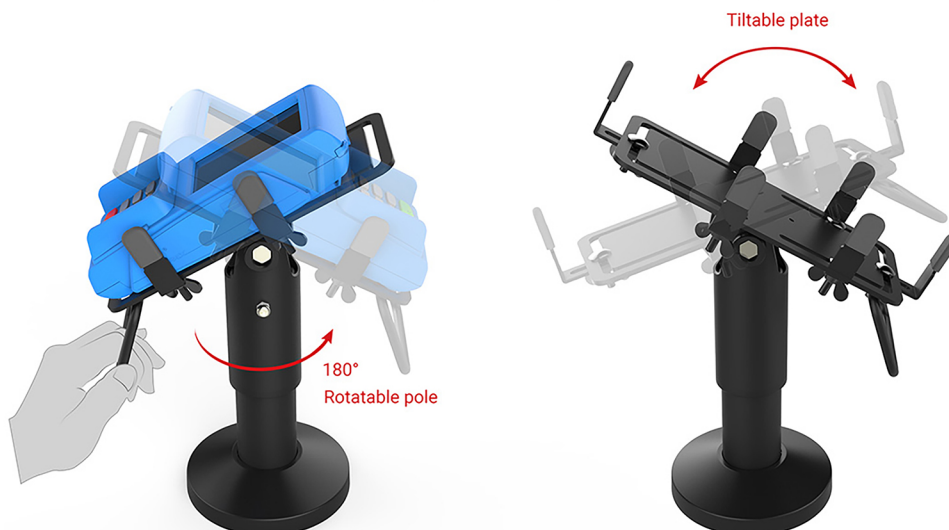

Universal for Various Payment Terminals

Every clip can be adjusted by loosening the screws under the plate.
Easy to use: install your payment terminal and tighten the clips around it.
Applicable to payment terminals of different sizes from 80-135mm wide.

Flexible Movement

The upper pole can be rotated 180° from customer side to cashier side. Tilttable plate offers ideal viewing angle and adapts to different operation habits

Cost Saving

Customers can upgrade and replace their payment terminals at any time without worrying about additional installation costs.

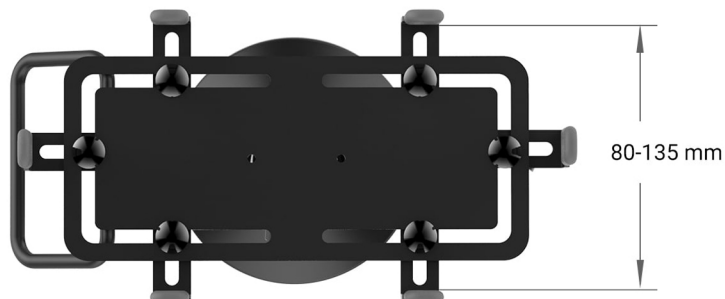

Steel Structure & Detail Design

Made of thicken heavy-duty steel, the stand keep stable and durable even under frequent use. Many details have been added: detachable clips, flange cover, routing hole, etc. Customizable colors.
