Customer Display Variety of Sales Reports

12 digits LED Numeric Display

Inventory Operation (Stock Control) Powerful Cashier/Clerk Functions

Mode Switch

There is no physical key for switching work mode. It is possible to set the register in five different ways through the <KEY> key. In order to obtain the different positions, it is necessary – with the register switched on – to press keys 1, 2, 3, 4, 5 before pressing the <KEY> key. This way the register will start in one of the following modes:

Keyboard

ECR keyboard is constituted by keys, which allow access to the sales, reading, resetting and programming functions. A special guide leads the user through the operations.

Powerful Department Keys

The ES-360 features 10 departments with 10 direct keys by 4 shifts, to a max. 40 Depts.. And each department can be programmed up to 16 characters, preset price, 3 Taxes, Group, KP (1-8), zero price, single item, Disc 1 and 2.

Operator Display

The operator display uses a WISE-158 LCD display with green-yellow backlight, which can display up to 4 lines x 16 characters. The display is divided into two parts: the up part occupies first three lines, which can adapt of scrolling contents displayed. The second part occupies the last line, which is used for indicating ECR working conditions such as register working mode, operator name, and data entering area.

Methods Of Payments

Up 6 Programable Payments keys Cash, E-Wallets, Visa, Master Credit Cards, Coupons and Credit. Each tender key can be programmed with 8 payment characters description, drawer open option, amount tendered compulsory, No Add# no. input compulsory, Tips enabled, Drawer totalizer No., Mixed tenders can be accepted, part in cash and part in credit or by cheque; the change given is always in cash. Note that by using the <CURRENCY> function the register accepts payment in foreign currency.

Programming for up to three tax rates

GST, SST, VAT tax type with Add-In and Add-on tax symbols system makes the whole tax operation simple and fast.

Powerful Price Look Up (PLU) Functions

The ES-360 come with 6,000 PLU with EAN 13 digits barcode scanning abilities. And each PLU can be programmed up to 16 characters, 4 price level shifts, linked Dept (1-40) Cost price and Offer record number.

PAID OUT and RECEIVED on ACCOUNT Functions

Each PO or RA key can be programmed with 8 characters description, drawer open option, amount tendered compulsory, Deposit for Prepay PB function, Drawer totalizer No.

Correction Functions

The register has 4 operations to correct mistake in register mode, each of them has a own description and function code: Error Correction, Void, Refund and Cancel a Sale Operation.

Programming Header & Footer

The register has max 8 lines of header and 6 Lines Footer Message. with 34 characters per line. Also support shop graphic logo in replace of header message on receipt.
